

“SIUT has been my lifeline for the last 15 years...”

“**M** My name is Kanwal. I came to SIUT 15 years ago, when I was 14. I was diagnosed with renal failure and placed on dialysis for two years. Then, I received a kidney transplant; my mother was my donor. My treatment was free of cost, and this was a big relief for my parents. I then took a beautician's course at the SIUT Rehabilitation Centre, which was also free of cost. Today, I run my own beauty parlor! I am also taking advanced courses to become a better beautician. I go to SIUT every three months for check-ups and medication so I can remain healthy. None of this would have been possible without SIUT.

That is why, for me, SIUT is my lifeline.”

Costs incurred by SIUT for Kanwal's treatment

Medical expenses: Rs 1.2 million	Annual ongoing expenses: Immunosuppressive medication (for life): Rs 225,000
Education expenses: Rs 15,000	

Kanwal is one of the 10 million patients that SIUT has treated, absolutely free of cost, since its inception 42 years ago.

We treat more than a million patients a year, at our 9 medical centres in Pakistan, and provide them with free check ups and medication for the rest of their lives.

We also provide financial assistance, whenever possible, to improve the quality of their lives.

We do all this because we believe that healthcare is the fundamental right of every human being.

Free of cost – and with dignity.
