EXPLANATION OF THE EVALUATION METHODOLOGY USED TO DETERMINE THE BEST EVALUATED BID

- a. Marks obtained in the detailed technical evaluation will be carried forward and prorated. The tender will be awarded to the Responding organization with the highest cumulative score of each individual product (Technical Score + Financial Score).
- b. The formula for technical scoring is
Technical Score = (Total technical marks of the respective product / 100) x 60.
- c. The formula for financial scoring is
 The lowest bidder receive the full 30 marks. Other bidders receive marks calculating using the formula:
Financial score = (Lowest Quoted Price / Bidder's Quoted Price) x 40.

EXAMPLE CALCULATION:

1- Technical Evaluation

<u>S. No</u>	<u>Supplier</u>	<u>Technical Score</u>	<u>Prorated Technical Score</u> (Score Obtained x 0.60)
1	A	85	85 x 0.60 = 51
2	B	75	75 x 0.60 = 45
3	C	60	60 x 0.60 = 36

2- Financial Evaluation

<u>S. No</u>	<u>Supplier</u>	<u>Supplier Quoted Rate</u>	<u>Prorated Financial Score</u> (Quoted Rate ÷ Lowest Quoted Rate x 0.40)
1	A	86	(86 ÷ 86) x 0.40 = 40
2	B	105	(86 ÷ 105) x 0.40 = 32.76
3	C	130	(86 ÷ 130) x 0.40 = 26.46

3- Calculation Best Evaluated Bid

<u>S. No</u>	<u>Supplier</u>	<u>Technical Prorated Score</u>	<u>Financial Prorated Score</u>	<u>Final Score</u> (Tech Score + Fin Score)	<u>Approval</u>
1	A	51	40	51 + 40 = 91	Approved being Best Evaluated Bid
2	B	45	32.76	45+32.76 = 77.76	
3	C	36	26.46	36+26.46 = 62.46
